

Student Learning Center™

Opening the door to a lifetime of learning

**Easy and intuitive for kids to use
and even easier for you to manage**

*Promotes self-directed,
intrinsically motivated learning*

*Teacher-guided, individualized
curriculum aligned to state standards*

Carefully selected educational content

Perfect for classrooms, labs, school libraries, and after-school programs

Your *new* classroom assistant

The Student Learning Center™ (SLC) from AWE provides children with a self-directed, intrinsically motivated learning environment—which has been proven through scientifically-based research to effectively engage children in learning activities for extended periods of time. The SLC helps students *learn how to learn* and *to learn heuristically*.

The SLC learning environment facilitates parental involvement—another proven predictor of early learning success—as it features daily activity reports, progress and achievement reports, and a portfolio of activities for each student.

The Student Learning Center is currently available in English, Bilingual Spanish, and Bilingual French.

Student Learning Center: Teacher-guided, individualized curriculum

The Student Learning Center is perfect for public and private learning institutions. It enables teacher-guided, individualized curriculum for each student that aligns with national and state educational standards. All subject areas are covered: math, reading, writing, science, music, research, art, history, language, and computer literacy.

- Students select their photo to sign onto the SLC
- Teachers schedule individualized learning time for students, choosing content that supports the day's lesson
- Content can be used individually or by the whole class, as the SLC is smartboard friendly
- Learning portfolios are created and may be shared with parents
- Supplemental materials provide lesson plans and activities

Proven educational tool

Include parents with the ELF™ Child-Safe Browser

Extend the Student Learning experience into the home by giving parents and students the capability to access the ELF™ Child-Safe Browser from their home computers. With ELF, students can safely explore over 100 safe, top-rated educational websites using an interface that is similar to the SLC. These multimedia sites provide highly engaging, interactive activities and content covering a broad spectrum of curricular areas. Children can use the browser independently or with an adult.

You can control the content available to children by adding and removing websites. You can even brand ELF with your school's logo. ELF can be distributed—free of charge—to the students and families at your school.

Track progress and interest

The SLC tracks students' activities, interests, and progress in key areas. Students build their learning portfolios throughout the year and teachers use these to evaluate their progress.

Teachers can access key online reports that provide a wealth of information.

- Outline each students' learning portfolio
- Provide daily activity reports to send home to parents
- Track the time spent on each program used
- Indicate areas of student interest for development plans
- Show hidden assessments for progress tracking

"These computers are great! Both staff and students love them, and they're no trouble to use. The staff especially likes that there is so much content and curriculum built right in. They help our classroom teachers with our after-school programs."

— Viki Balet, Kyds, Inc., Beyond the Bell, LAUSD

Carefully selected content that is fun and educational

AWE employs a comprehensive review process to evaluate and select content. This process ensures the highest quality, age-appropriate, intrinsically motivated content. Many titles have built-in progress and assessment tools.

The SLC seamlessly combines classic educational content from various publishers including Edmark, DK, and Knowledge Adventure with ingenious creations such as *Math Doodles* and *Giggles*. AWE carefully tracks utilization statistics in order to make annual improvements to the content on the SLC.

Aligns with state and national standards

Student Learning Center™

Opening the door to a lifetime of learning

Our product options meet your unique technical needs

The Student Learning Center is available in various configurations to meet your needs. You can choose a complete hardware/software bundle or the software-license version, which can be installed on compatible computers.

The all-in-one touchscreen with keyboard, mouse, and printer is the most popular. Also available are standard desktop, portable netbook and laptop, as well as Apple iMac hardware editions. All of these editions require minimal technical set-up or support. The SLC is truly a worry-free classroom assistant.

SLC hardware is covered by a three-year hardware warranty, which may be extended to five years. The printer has a one-year warranty.

The software-license version is covered for the length of the agreement. The software is updated annually.

Incomparable service and support

AWE products are designed to be easy-to-use right out of the box with minimal training and support required. To help answer any questions, free support is available via phone or email. The AWE Help Desk team, a well-trained and experienced staff, provides the gold standard for service and support. Talk to current customers—AWE’s most enthusiastic sales people!

“These computers are very easy to administer. When I do have a question, I have found their support department to be very responsive. And using the administrative controls to access reports and other features is simple.”

- Gary Krajacic, Technology Administrator, Fayetteville Free Library

New Release License program

AWE’s optional New Release License Program (NRL) ensures that your SLC stays current and includes software updates, an extended warranty, and free use of the ELF Child-Safe Web Browser. Priced per unit, it is an affordable way to maintain the latest version of the SLC.
