

**It's not magic. It's mimio!**

With a mimio bar, your computer, and your projector, you can convert any standard whiteboard up to 4' by 8' into an interactive whiteboard! Everything on your computer is now accessible from your whiteboard!

**Create a dynamic work surface**

Unlike bulky conventional whiteboards, mimio's technology is housed in a compact bar that attaches easily to any whiteboard, converting it into a vibrant teaching medium. The mimio Interactive Stylus acts like a mouse, so you can manipulate anything on your computer screen right from the whiteboard.

**Interactive StudentMate Mobile Lab**

**mimio +**

**StudentMate  
Mobile Lab**

Use mimio with your StudentMate Mobile Lab to display your lessons. Using our S.A.M. software, wirelessly project student work from their StudentMates to the white board via your computer!

Weighing under three pounds, the entire mimio system easily fits in your StudentMate Mobile Lab. Mimio is the ideal add-on for your StudentMate Mobile Lab!

**StudentMate Mobile Lab + mimio interactive & mimio wireless: \$10,698** (plus shipping)

**1024x768, 2600 Lumens**

**add the Vivitek D825MX for only \$649!**

**Or create your own mimio bundled solution!**
