

Vivitek D825MX DLP Projector

\$649

with **mimio**

for \$1299

The D825MX is a native XGA (1024x768) projector that uses the latest DLP and BrilliantColor technology from Texas Instruments that result in exceptional image details. It also delivers 2600 lumens of superior brightness that provides excellent projection under any lighting conditions and a 2200:1 contrast ratio for the extraordinary crisp image details. No filter is required with the D825MX, which makes it resistant to dust, and dirt, so you do not have to worry about clogged filters. Reduced maintenance fees, low total cost of ownership. Instant power down. Built-in Kensington security locks help prevent any unauthorized removal or theft of your projector!

Versatile, High Performance, 5-Yr Warranty for Education Customers!

The D825MX XGA (1280 x 768 native resolution) projector delivers a rare blend of Vivitek quality at an affordable price with value features included. One of the features is the integrated RS-232C port for remote control of your projector from a personal computer, enabling you to integrate it with third party control systems for easy system administration.

You can view your presentation and stay engaged with your audiences by attaching your personal computer to the projector's monitor loop ports. The D825MX lets you route a second feed of your presentation to your personal computer, so you can present it to your audience face-to-face. These XGA DLP projectors also include vertical digital keystone correction, allowing you to adjust images to fit your presentation location.

Ultra-Brightness with Superior Color Reproduction

The D825MX projectors shine bright at 2600 ANSI Lumens and have a 2200:1 contrast ratio to display extraordinarily crisp details. Additionally, the projectors combine all of the features of an advanced DLP chip, a 5-segment color wheel (R, G, B, W, Y) and a high efficiency light source lamp to produce incredible pictures with rich

and vibrant colors.

Long Lamp Life and Video Projector Value

The D825MX is designed filter-free, eliminating the maintenance fee and inconvenience of replacement. The unit also has a cost-effective lamp life of up to 4,000 hours (Eco-Mode).
